

# SATIC - 50

Effective, high-quality, safe cleaning products for professional, janitorial and industrial use

**SATIC - 50 has been developed for the current requirement of cleaning in the Food Processing Industries and can be applied as liquid cleaner for tanks, crates, cans, floor, trays and other process areas. It is safe on various surfaces like: Stainless Steel, Plastic, Rubber, Fiberglass and all other materials utilized in Food Processing Units when used in commended concentrations.**

- SATIC - 50 is a combination of Non Ionic surfactants, Sodium Hydroxide and Phosphonates. Non Ionic surfactant reduces the surface tension, Sodium Hydroxide provides cleaning effect and Phosphates provide penetration effects.
- It is safe on various surfaces like: Stainless Steel, Plastic, Rubber, Fiberglass and all other materials utilized in Food Processing Units when used in commended concentrations.

### BENEFITS:

- Reduces scaling.
- Removes grease & oil stains easily.
- Reduces scaling effect due to Ca & Mg.
- Due the sanitizing effect.
- Good & Reinsbility
- Suitable for automatic dosing & control by conductivity ensuring consistent delivery of product
- Low foaming properties improve cleaning efficiency
