

# SATOL CHEMICALS PVT.LTD

## CLOTH WASHING PROCEDURE WITH LAUNDRY CHEMICAL

Product Name	Dose	Application	Instruction
Satfab 200 S	1 ml	SATFAB 200 S is an effective booster based on a blend of nonionic surfactants. This product shows excellent performance on fatty/oily soil. Fats and oils, once removed from the fabric, are further dispersed by SATFAB 200 S, thereby preventing redeposition.	Use the Hot water with 45°C - 50°C Temp. for 3-5 minutes Use SATOL 200S - 1 ml per kg of dry load. Drain after the Wash Process is completed. SATFAB 200 S is mainly used in conjunction with alkalinity boosters and/or main wash detergents. In combination with the latter its main function is to improve dispersion of fatty and oily soil, thus enhancing wash performance on heavily soiled goods such as cotton and polyester/cotton workwear and table linen.
Satfab Universal	3 ml	SATFAB UNIVERSAL is intended for washing UNIVERSAL types of textiles, t for water-based wash. The product is especially suited for gentle and hygienic safe washing of cleaning fabrics, such as mops, and cleaning cloths of cotton and / or synthetic beers. The product is intended primarily for automatic dosing.	Use the Hote water with 45°C - 50°C in the main wash process and use 3 ml / Kg of dry load SATFAB Universal for 8 - 10 minutes. No need to drain the water as this water can also be sued for Bleaning (Hypo).
Satfab Build	5 ml	SATFAB BUILD is a liquid alkali builder/ booster, based on a mixture Of alkalis and NTA (water hardness binder), for use in Medium to hard water (125 - 250 ppm).	SATFAB BUILD is a powerful alkali builder/ booster, which is based on a balanced blend of alkali, water hardness sequestering agent and anti-greying agents.SATFAB BUILD is most commonly applied in conjunction with a surfactant booster. These products combined with bleach or a powerful system, which may be used for cleaning fabric from hospitals and other health care establishments. Use 5 ML / Kg of dry load, SATFAB Build is an optional chemicals and is used along with SATFAB Universal.
Satfab Hypo	7 ml	SATFAB HYPO is a sodium hypochlorite based bleach suitable for use in all types of industrial laundry machines. SATFAB HYPO effectively removes staining on WHITE linen.	SATFAB BUILD is a powerful alkali builder/ booster, which is based on a balanced blend of alkali, water hardness sequestering agent and anti-greying agents.SATFAB BUILD is most commonly applied in conjunction with a surfactant booster. These products combined with bleach or a powerful system, which may be used for cleaning fabric from hospitals and other health care establishments.Use 5 ML / Kg of dry load, SATFAB Build is an optional chemicals and is used along with SATFAB Universal.
Satfab Rustnil	3 ml	SATFAB RUSTNIL is a laundry sour specially formulated for use in commercial and on-premise laundries. This product should be applied in the last rinse to neutralise residual alkali and to reduce of active chlorine.	For best results maintain alkalinity At pH11-12@75 to 85°C for 12 - 15 minutes. For light distaining, use from 3 mls/kg fabric weight depending on light to heavy stains.Dosage may vary according to degree of soiling.SATFAB RUSTNIL is an alkali and chlorine 'neutralizer', based on bisulphites. These substances are mildly acidic and are applied to neutralize alkali present in rinse water and on fabric
Satfab Softner	4 ml	SATFAB SOFTENER is a concentrated fabric softening liquid specially Formulated for use in commercial and on premise laundries. The product is suitable for application on most types of fabric and can be manually or auto dosed.	SATFAB SOFTENER conc. is a concentrated fabric conditioner Based on biodegradable cationic, quaternary ammonium salts. In the wash solution, these positively charged cationic, adsorb to the negatively charged surface of fabrics. During the drying process, this prevents interlocking of individual fibers and build up of static electricity (especially on synthetic fibres).In addition lubrication facilitates ironing/ calendaring.
