

SATOCHURN

Powder Alkali Detergent

Satochurn is a soft metal safe, silicated powdered heavy-duty low foam detergent formulated for use in cleaning of Continuous Butter Making machines in the dairy industry.

- Satochurn is a specialised detergent formulated for cleaning of CBM in the dairy industry.
- It is silicated detergent that gives excellent fat penetration properties and also makes it soft metal safe product.
- It is therefore safe for use on aluminium and other soft metals.
- It enhances the anti sticking properties of the CBM to enable them handle butter more efficiently.

USAGE INSTRUCTION

- Use Satochurn at 0.3-2.0 % w/w depending on the degree of soiling and water hardness.
- Typical use temperatures are between 60 -80°C.
- After cleaning with Satochurn, a thorough rinsing with potable water should be done.

FORMULATION

Sodium Metasilicate	>=30 %
Sodium Carbonate	5 – 15 %
Anionic Surfactants	< 5 %

PACKAGING :

25 kg
sack

BENEFITS:

- Excellent fat/oil penetration and removal properties
- Safe for use on soft metals
- Suitable for use in CIP and under conditions of high turbulence

SPECIFICATION

Appearance	: White Fine Powder
Odour	: Odourless in application
Solubility	: 100% Soluble
Total alkalinity % Na ₂ O	: 21-24
pH	: 12±0.5 in 1% solution
