

**NEW GENERATION, ECO-FRIENDLY
CLEANING SOLUTIONS**

Effective, high-quality,
safe cleaning products
for professional, janitorial
and industrial use

SATOL CHEMICALS JOURNEY...

Corporate Profile

We introduce ourselves as the manufacturer of speciality chemicals who entered the market of Industrial cleaning in 1999, when plethora of global players had their dominance. We not only survived that cut throat competition but managed to capture a major share of the market. Now after a decade we are a leading player having carved a niche for itself in the south Asia region with product focus on **Breweries / Beverages / Dairy & Food Processing**.

Riding high on this success we have recently entered into **Institutional Cleaning** with the same vision of providing "Economy with Quality" which has been our core strength and philosophy.

We are dedicated to preserving our precious environment. "SATOL" an organisation offering eco-friendly, bio-degradable products from beginning and which will continue in future too.

A judicious mix of process and ingredients will keep our products frontline because at SATOL Chemicals research and development is a continuous process with experimenting and innovating at the centre stage. With our Strong R&D based at Mumbai and Manufacturing facility at Parwanoo, in one of the best SEZ of INDIA, we are capable of custom designed products to individual customer specifications which distinguish us from our competitor making "SATOL" the undisputed choice of customers.

What we value :

1. Optimum customer satisfaction.
2. Continuous up-gradation in our quality standards making our association with customers a delightful and economical experience for them.
3. A committed and trustworthy professional relationship which goes beyond mere business relations.

Vision : To make the whole world understand what cleaning stands for by setting up examples through our products and their use.

Mission : To be a trendsetter in cleaning industry pioneering not only hygiene market but also paving the way for our competitors through our high standards which will propel them towards the attainment of their maximum efficacy, raising the bar for worldwide hygiene altogether.

"With immaculate performance imbibed in our products we dedicate ourselves to preserving cleanliness in an ecological way"

Bathroom Cleaner cum Sanitizer (Concentrate)

S1

Multipurpose liquid cleaner for all in one cleaning applications of water closet, utensils, sinks, taps, tiles, etc. with excellent stain removal power.

Usages : Normal Soiling : 10-12 ml in 1 ltr water,
Heavy Soiling : 20-30 ml in 1 ltr water

Hygienic Hard Surface Cleaner (Concentrate)

S2

Hard Surface Cleaner product for effective cleaning and disinfection for all hard surfaces. It can be used for wet mopping as well as through scrubbing with machine.

Usages : Normal Soiling : 10-12 ml in 1 ltr water,
Heavy Soiling : 20-30 ml in 1 ltr water

Glass Cleaner (Concentrate)

S3

Concentrated glass cleaner liquid recommended for daily periodic cleaning applications of glass surfaces and any other see thru surfaces. It cleans to sparkle and streak free in one action and doesn't leave marks post application.

Usages : Normal Soiling : 10-12 ml in 1 ltr water,
Heavy Soiling : 20-30 ml in 1 ltr water

Furniture Shine Maintainer

S4

It is developed for effective maintenance of wood including all furniture and laminated surfaces. It provides quick cleaning and excellent shining to the polished wood surface along with shield against normal wear. It effectively removes oily soils and finger marks leaving luster to polished surface.

Ready to use product

Air Freshner

S5

It is water based liquid freshner and deodorizer with a pleasant fresh floral fragrance. It is used for air conditioning and neutralizing odours in all rooms.

Ready to use product

Toilet Bowl Cleaner

S6

Specially formulated Toilet Bowl Cleaner for removal of yellow lime scale deposits and stubborn stains. It leaves toilet bowls and urinals sparkling clean. It has appropriate viscosity for excellent adhesion to vertical / slopped surface.

Ready to use product

Multipurpose Cleaner

S7

It has been developed for the current requirement of I & I cleaning in the F & B industries as well as House keeping Applications. It can be applied as cleaner for tanks, crates, cans and other process areas. For the institutional applications it is effective for cleaning of kitchen.

Usages : Normal Soiling : 50 ml in 1 ltr water,
Heavy Soiling : 50-100 ml in 1 ltr water

Satol Supreme

S8

Multipurpose paste cleaner is a finest solution to remove any old and hard stains from any surface due to oil and dirt with fast action. It is ready to use formulation and instantly removes rust and paan stains from surface.

Usages : Normal Soiling : 50 ml in 1 ltr water,
Heavy Soiling : 50-100 ml in 1 ltr water

Washroom Cleaner

S9

Effective in cleaning and disinfecting for all surface fittings, bathtub, sink, walls, tiles & removes hard water stains.

Usages : Normal Soiling : 50 ml in 1 ltr water,
Heavy Soiling : 50-100 ml in 1 ltr water

Manual Dish Wash

SD1

Concentrate dishwashing detergent for manual applications with effective food residue removal and easy rinsing properties. It is safe for use with skin contact.

Usages : Normal Soiling : 10 ml in 1 ltr water,
Heavy Soiling : 20-30 ml in 1 ltr water

Kitchen Cleaner

SD2

SATOL SD2 is a neutral detergent suitable for manual cleaning of all surfaces in the kitchen. It is an optimal blend of anionic and nonionic surfactants, which makes it effective for removal of grease and dried-on food. The sequestrant in the formulation makes it suitable for all water conditions and does support cleaning performance.

Usages : Normal Soiling : 10-20 ml in 1 ltr water,
Heavy Soiling : 20-30 ml in 1 ltr water

Vegetable Sanitizer

SD4

SATOL SD4 is a concentrated liquid for disinfection of all surfaces including food contact surfaces and also suitable for disinfection of vegetables.

Usages : Normal Soiling : 2-5 ml in 1 litre water
Heavy Soiling : 5-10 ml in 1 litre water

Scale Remover

SD5

Excellent de-scaler which effectively removes Ca and Mg scales from any hard surface with immediate prevention from new scale deposits.

Usages : Normal Soiling : 10 ml in 1 ltr water,
Heavy Soiling : 20-30 ml in 1 ltr water

Satol Polish

SD7

It is an excellent ready to use product for polish and maintenance of stainless steel surface. It takes care of surface contaminants like dirt, residue, fingerprints, water spots and other markings that you notice on stainless steel and provides smooth luster to surface.

Usages : Directly apply on SS Surface

Grill Cleaner

SD9

Heavy duty alkaline liquid cleaner developed for removal of accumulated baked-on carbon deposits, fats, oils, greases from the grill surface. This specialized grill cleaner can be used without cooling the grill.

Usages : Oven / Grills : Neat use Fryer cleaning
100 ml / 10% in water

Stenza

Very unique adhesive remover developed on special request from Indian Railways. It offers excellent results for label and gum stains removal from any hard surface. This product is having no irritation on human skin and also having fine odour.

Ready to use product

Stenza MPC (Alcohol Based Multipurpose Cleaner)

STENZA - MPC is a concentrated general purpose cleaner cum sanitizer which doesn't contain any abrasive or bleaches and is ideal for the quick & gentle cleaning of all hard surfaces.

Ready to use product

Heavy Duty Degreaser

Heavy duty liquid degreaser concentrate developed for penetrating and dissolving hard oily surfaces. It provides fast penetration through highly soiled surfaces like grease, fats, etc.

Usages :
Normal Soiling : 10 ml in 1 ltr water,
Heavy Soiling : 20-30 ml in 1 ltr water
Very Heavy Soiling : 50 ml in 1 ltr water

Satol Rinse

Effective rinse serve developed for wide range of ware washing applications. It provides excellent shiny dishes, glasses and utensils along with spot and film protection.

Usages : The concentration for both manual & auto operation to be maintained at 0.01-0.05%

Auto Dish Wash

Specially developed for machine and washing applications. Excellent food soiling residue removal and prevents staining.

Usages : Concentration for machine operation is 0.1-0.3% at 60-65°C

S. S. Cleaner

Effective rust remover on stainless steel, metal, brass & other metals

Usages : Normal Soiling : 50 ml in 1 ltr water,
Heavy Soiling : 50-100 ml in 1 ltr water

Hand Sanitizer

Thoroughly clean and dry hands with a suitable mild hand cleanser. Rub for minimum 30 seconds.

Usages : 3 ml for Hygienic hand disinfection
5 ml for surgical hand disinfection

Satol Handwash

This liquid soap is for effective hygiene and sanitation of hands with a pleasant smell and appropriate moisturisation. It provides adequate foaming with antibacterial properties.

Ready to use product

Carpet Shampoo

101

SATOL 101 is a concentrated carpet shampoo for all types of carpet upholstery. It is PH neutral, pleasantly carpet shampoo for

Usages : Application at 2-3% with pressurised spray

Carpet Cleaner

103

Concentrated Carpet Shampoo, used for periodic restorative carpet cleaning process.

Usages : Application at 2-3% with pressurised spray

Satol Spiral Super

Heavy duty liquid degreaser concentrate developed for penetrating and dissolving hard oily surfaces. It provides fast penetration through highly soiled surfaces like grease, fats, etc.

Usages : Normal Soiling : 10 ml in 1 Ltr water,
Heavy Soiling : 20-30 ml in 1 Ltr water
Very Heavy Soiling : 50 ml in 1 Ltr water

Satol Eco Shine

Satol Eco Shine protects calcareous natural stone floors (e.g. marble, travertine, jura limestone) and achieves a mirror-like shine. It reduces water penetrability thus facilitating daily cleaning. It provides the highest shine for dull, traffic-worn marble and other calcareous stone floors.

Ready to use product

Satol Extra Shine (Liquid Crystallizer)

SATOL BLOSS Marble Shining Liquid is to be used for maintenance of surfaces submitted to an intense traffic. It may also be used after the polishing process as final step for crystallization.

COVERAGE: 40 - 50m²/Ltr

Ready to use product

Satol Bloss (High Crystallizer Powder)

SATOL BLOSS is composed of polishing and high crystallization components with which optimal shine results are achieved. SATOL BLOSS removes very small, fine scratches and thus increases the stone's contour acuity. Treatment with SATOL BLOSS improves floor tread properties.

COVERAGE :
5 kg
SATOL BLOSS
for approx.
400-500 m²

Ready to use product

Satol Eco Care (Perfumed Liquid Gel)

ECO CARE Product is a Satol perfumed liquid gel which is an effective hygiene and sanitation gel for hands leaving a pleasant smell and it is an appropriate moisturizer.

Satol Eco Clean (Multipurpose Liquid Cleaner)

ECO CLEAN has been developed for the current requirement of Industrial & Institutional Cleaning in the Food & Beverage Industries as well as Housekeeping Applications can be applied as cleaner for tanks, crates, cans, floor, trays and other process areas. is effective for cleaning of kitchen utensils, glassware, floors and oily surfaces. is safe on various surfaces like : Stainless Steel, Aluminium, Plastic, Rubber, Fiberglass and all other materials utilized in Food Processing Units.

SATFAB UNIVERSAL L1

Liquid Detergent with Booster and optical brightener

SATFAB UNIVERSAL is a fully built-up liquid detergent based on a blend of high-performance surfactants and contains an optical brightener. In conjunction with SATFAB BUILD, it offers a practical solution for a wide array of fabric washing needs encountered in hotels & healthcare establishments.

SATFAB 200 S L2

Liquid Emulsifier Concentrate

SATFAB 200 S is a super concentrated liquid emulsifier for effective cleaning of fabrics regularly exposed to cooking oils, massage-oils, mineral oils and grease stains. It increases effectiveness of normal laundry detergents by actively removing these types of soiling from fabrics.

SATFAB BUILD L3

Liquid Alkalinity Builder / Booster for use in Medium water Hardness - without phosphates

SATFAB BUILD is a liquid alkalinity booster / builder based on an alkali source that makes it suitable for use in normal water hardness (upto 50 ppm) situations. It is normally used in conjunction with SATFAB UNIVERSAL. It does not contain phosphates.

SATFAB HYPO L4

Chlorine Bleach

SATFAB HYPO is an effective low temperature chlorine bleach system based on hypochlorite, alkali and bleach stabilising agents. It can be applied on all type of white fabrics and articles with chlorine compatible dyes. Especially suitable for removing stains coming from foodstuffs and beverages.

SATFAB OXYBLEACH L5

Liquid Oxygen Bleach

SATFAB OXYBLEACH is a high quality peroxide-based bleach for maintaining and enhancing whiteness and for removing stains coming from foodstuffs and beverages. Suitable for a wide array of coloured fabrics too. Has good storage-stability.

SATFAB CID L6

Liquid Neutraliser - Neutralises Alkalinity and chlorine

SATFAB CID neutralises residual alkalinity as well as chlorine and oxygen bleaches after the wash process, thereby preventing yellowing and possible fabric damage. It is very safe on cottons.

SATFAB RUSTNIL L7

Liquid Neutraliser - Neutralises Alkalinity, Chlorine and prevents Iron precipitation, thereby preventing rust stains on fabrics.

SATFAB RUSTNIL is a laundry sour used to neutralise residual alkalinity at the end of the total wash process. It also prevents yellowing of fabric by neutralising iron in the rinse water. It also efficiently neutralises all residual bleaches - chlorine as well as oxygen bleaches.

SATFAB SOFTENER L8

Fabric Softener Concentrate

SATFAB SOFTENER is a rich perfumed fabric softener specially formulated for use in commercial and on-premise laundries in hotels and hospitals. The product has enhanced softening properties and does not adversely effect absorbency at all. The special perfume continues to give off pleasant fragrance, even after drying and ironing / calendaring at high temperatures.

SATFAB CONDITIONER L9

Neutraliser for hardness and iron in laundry-water

SATFAB CONDITIONER contains high quality sequesterants to neutralise hardness and iron in laundry-water and ensures the best wash-performance. Prevents greying, yellowing and iron/rust stains on fabrics. Prevents scaly deposits on fabrics and protects fabric-texture. Prevents scaly deposits on washing machines, enhancing machine life-span.

POWDERS

SATFAB COMPLETE P1

Superior Performance Detergent

SATFAB COMPLETE is a complete, advanced, fully built-up laundry detergent for light and heavy soils. It is suitable for use on all cottons, polyesters and blends thereof, providing the highest standard of wash performance. The high-quality water hardness sequestrants ensure prevention of build-up of scaly deposits on fabrics and equipments.

SATFAB ALL IN ONE P2

A versatile, multi-purpose detergent with bleach

A multi-purpose detergent powder with in-built stain removing ability for a wide range of stains, hard water compability and in-built alkalinity. Saves water, steam, expensive boiler-fuel, time and electricity through highly efficient wash-process. Enhances productivity.

SATFAB BOOST P3

Alkalinity Booster

SATFAB BOOST is an alkaline booster specially formulated to assist in the removal of heavy soils, as found on F & B linen, engineering overalls, etc. When used in conjunction with SATFAB COMPLETE, it gives excellent results. It does not contain caustic soda, hence, it is safe on fabrics.

SATFAB PEROXY P4

High quality powder bleach, safe on coloured and white textiles

A high quality peroxide-based bleach for maintaining and enhancing whiteness and for removing stains coming from foodstuffs and beverages. Suitable for a wide array of coloured fabrics too. Has good storage-stability.

SATFAB ACTION P5

Hard Water Conditioner

SATFAB ACTION is a water-conditioner, which contains sequesterants to neutralise water-hardness effectively, producing the best cleaning efficiency.

SATFAB RINSE P6

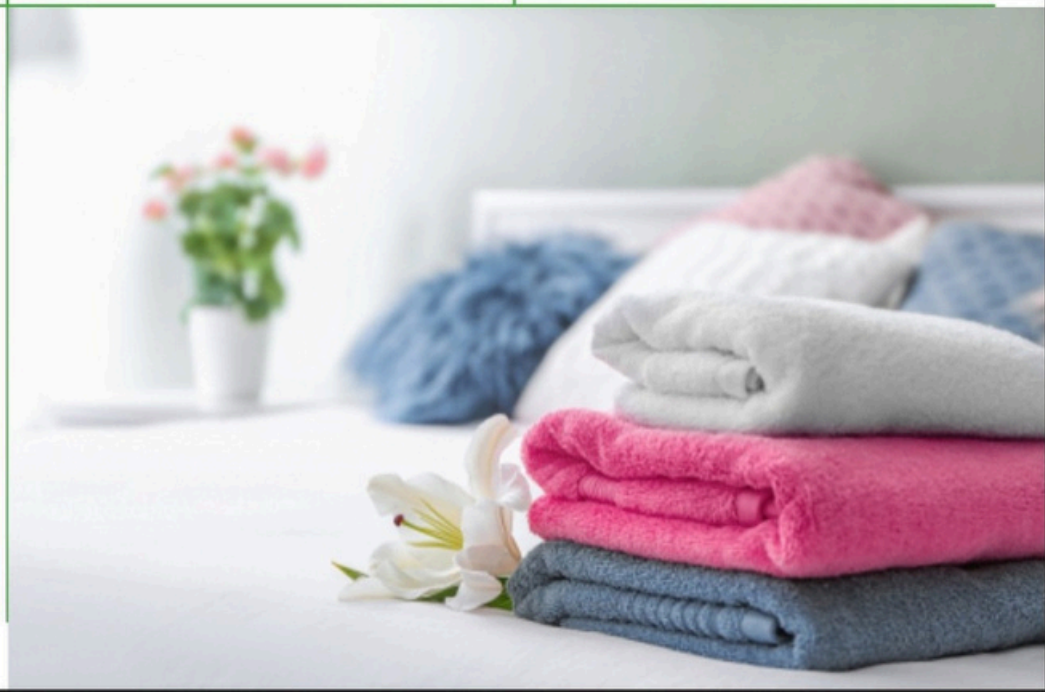

Neutralising Agent

SATFAB RINSE is a mildly acidic powder that has the properties of neutralising both alkalies and chlorine. Addition of SATFAB RINSE in the last rinse completely neutralises any excess alkalinity as well as bleach, thereby preventing yellowing and possible

SATFAB LAUNDRY SPOTTING KIT

SATFAB LAUNDRY SPOTTING KIT offers simple, quick and comprehensive stain removal. It includes four 500 ml bottles that take care of different kind of stains like protein, blood, tannin oil, paint, rust & many others.

CLEANING & SANITATION SOLUTION FOR POULTRY

SATONIL - G is a multipurpose cleaner & sanitizer for Plant Cleaning Applications in Food & Beverage Industries. This product is an excellent combination of various cationic surfactants and sequestering agent which results in efficient soil removal and disinfection of the surface.

SATONIL QUAT is a general purpose disinfectant for Plant Cleaning Applications in Food & Beverage Industries. This product is an excellent combination of various cationic surfactants and sequestering agent which results in efficient soil removal and disinfection of the surface.

SATOL BKC 20 is a germicidal cleaner for Plant Cleaning applications in Food & Beverage Industries. This product is an excellent combination of various cationic surfactants and sequestering agent which results in efficient soil removal and disinfection of the surface.

SATOL HP 100 is a foaming type excellent cleaning agent with formulation suitable for hygienic cleaning and sanitation of floors, tanks, equipments etc in Food Processing Industries & Housekeeping areas. It releases active oxygen while cleaning the surface with its detergency action and removes all oxidisable entities present.

SATONIL PA is a special fast action sanitizer based on stabilized Hydrogen Peroxide and Peracetic Acid. SATONIL PA is highly effective against all types of microorganisms and viruses even in cold water. Peracetic acid provides fast sanitizing and Hydrogen Peroxide rendered the product suitable for flushing or immersion.

Neutrofoam is foam cleaning agent developed for daily use in the Food and Beverage Industries. The product is a perfect blend of high foaming surfactants and EDTA. The presence of surfactants offers an improved sanitizing action and EDTA provides a strong detergent effect. It is very effective for use on a wide variety of applications ranging from effective removal and prevention of food soiling, scale deposits and oil stains.

SATFOAM CL is liquid alkaline chlorinated foam cleaner developed for daily use in the Food and Beverage

Industries. The product is a perfect blend of potassium hydroxide, high foaming surfactants and hypochlorite. The presence of surfactants offers an improved sanitizing action and potassium hydroxide provides a strong detergent effect. It is very effective for use on a wide variety of applications ranging from effective removal and prevention of food soiling, scale deposits and oil stains.

Alkaline Cleaner is liquid alkaline foamless cleaner developed for daily use in the Food Processing Industries, especially at Milk Collection & Processing Units and Sea Food Processing Industries. The product is a perfect blend of Non Foaming Surfactants and Sodium Hypochlorite. The presence of surfactants offer wetting action and potassium hydroxide provides a strong detergent & descaling effect. It is very effective for use in daily cleaning applications of Milk Collection and Processing Equipments like milking machines, bulk milk coolers etc and removal of fish fats in Sea Food Processing.

Satocid is a low foaming acidic cleaner cum sanitizer for CIP use in the breweries and beverages industries

Satol DS is an excellent descaler product which efficiently removes Calcium and Magnesium scales from hard surfaces, Metals, Glass etc..

VIROSAT is a general purpose disinfectant for Plant Cleaning Applications in Food & Beverage Industries. This product is an excellent combination of various cationic surfactants and sequestering agent which results in efficient soil removal and disinfection of the surface.

CLEANING & SANITATION SOLUTION FOR DAIRY AND FOOD PROCESSING

ALKALINE CLEANERS

1. **SATOL AC** - Alkaline Caustic Additive low foaming Germicidal liquid cleaner used in CIP - manual highly concentrated containing cleaning agents sequestrant, dispersant, surfactant reducing caustic consumption saving ETP chemical load, water, heat, electricity improving quality of cleaning by removing scales milk stone & water scales from powder plant pasteurizer silo pipe lines road milk tanker, Bulk Milk Cooler, Chilling Center safe use on SS 304 and 316, Aluminium, rubber plastic, MS, floor, tiles even re-commanded dose on skin.
2. **SATOL HAC** - High Alkaline Caustic substitute liquid cleaner used single for CIP without caustic on heavy soiling, greasy surface contains non ionic surfactants caustic & others to reduce surface tension increasing penetration & dispersant power for effective & class cleaning, better to those who want to avoid caustic in crates pasteurizer silo pipelines safe use on SS 304 - 316 rubber, plastic, MS, floor, tiles.
3. **SATOL GC** - Alkaline Germicidal Liquid cleaner with mild foam & good sanitation effect better for manual cleaning at Chilling Center, Bulk Milk Cooler consist of sequestrant, dispersant, surfactant improving manual quality cleaning with excellent hygiene properties for cans, crates, floor, trays, Road Milk Tankers safe use on SS 304 - 316 Aluminium, rubber, plastic, MS, floor tiles, even re-commanded dose on skin.
4. **SATOL NAC** - Normal Alkaline Caustic Additive low foaming liquid specially developed for stringent ETP standards through CIP & manual cleaning, It is highly concentrated free from disinfectant containing non ionic surfactant sequestrant, used in powder plant, dispersant, controlling caustic consumption saving ETP, accelerating quality cleaning in powder plant pasteurizer silo pipe line road milk tanker crates, Cans washer BMC. Chilling Center safe use on SS 304 - 316, Aluminium, rubber plastic, MS, floor, tiles even re-commanded dose on skin.
5. **SATIC-50** - It has been developed for the current requirement of cleaning in the Food Processing Industries and can be applied as liquid cleaner for tanks, crates, cans, floor, trays and other process areas.

NEUTRAL CLEANER

1. **LIZA** - Normal High Concentrated mild Alkaline - towards normal foaming odourless manual cleaning

LIQUID SOAP replace caustic based soap oil. Liza having good rinsibility with a perfect blend of EDTA, anionic non ionic surfactant cost effective in use concentration comparatively used on any surface like aluminium, rubber, plastic, floor, stainless steel, tiles where heavy soiling, greasy surface, fat, ice cream, butter section and milk tank road milk tanker floor etc, safe use on SS 304 - 316, Aluminium, rubber plastic, MS, floor, tiles even re-commanded dose on skin.

ACIDIC CLEANERS

1. **SATOCID** - Acidic Low foaming colourless liquid cleaner cum sanitizer for CIP effective on scales removing milk stone as well as water scales through CIP & manually from tanks and vessels without effecting on material of construction SS 304 - 316. Satocid consists of cleaning agents, phosphonet, phosphoric acid & surfactant.
2. **SATOL DS (De-Scaler)** - Acidic Non-Foaming odourless liquid de scaler through CIP as well as manual in hot or cold condition highly effective for removing milk stone as well as water - 316 aluminium, rubber, plastic on re-commanded dose.

scales single or with nitric acid from tanks & vessels. Satol DS consist of cleaning agents inorganic acid, organic acid & surfactant. High class scale remover from external and internal surface accelerating quality of cleaning in powder plant pasteurizer silo pipe line road milk tanker BMC, Chilling Center. It is non corrosive safe on SS 304 - 316 aluminium, rubber, plastic on re-commanded dose.

FOAMLESS CLEANERS

1. **SATOL FAC** - Foamless caustic additive germicidal liquid cleaner for cleaning and disinfection during CIP process. It can be used in CIP circuits as well as for general manual cleaning depending upon application requirement.

CLEANING & SANITATION SOLUTION FOR DAIRY AND FOOD PROCESSING cont...

2. **SATOBASE FL** - Liquid alkaline foamless cleaner with perfect blend of Non Foaming Surfactants and Sodium Hypochlorite. The presence of surfactants offer wetting action and potassium hydroxide provides a strong detergent & descaling effect. It is very effective for use in daily cleaning applications of Milk Collection & Processing Equipments like milking machines, bulk milk coolers etc.
3. **SATOCID FL** - Acidic foamless liquid cleaner developed for daily use in the Food Processing Industries, especially at Milk Collection & Processing Units. It is a perfect blend of inorganic acids and non foaming surfactants.

SANITIZERS

1. **SATONIL PA COLD SANITIZER (5 & 15%)** - Fast action sanitizer based on stabilised Hydrogen Peroxide and Peracetic Acid for application in Dairy & Food Processing Units. It is highly effective against most of the micro-organisms gram(+) and gram (-) thermophilic bacteria spores viruses in cold water. Peracetic Acid provides fast sanitizing and Hydrogen Peroxide renders the product suitable for flushing or immersion with better results when compared to Quarts, Phenols, Aldehydes & Halogens.
2. **SATONIL** - Specially developed new generation liquid odourless, tasteless and non toxic cold disinfectant with combination of highly concentrate Hydrogen Peroxide and Silver Cations also used for fogging.
3. **SATONIL QUAT** - General purpose mild alkaline odourless colourless liquid, used as disinfectant for cleaning & hygiene. It is based on Quaternary Ammonia Compound, water soluble effective on broad spectrum microbes specially gram(+) & gram(-) bacteria used through fully or semi CIP, manual & by fogging for hygienic purpose.

POWDER BASED ADDITIVE

1. **SATOL P** - Powder based caustic additive for internal cleaning and disinfection of tanks, equipments and very soiled pipework. It is a perfect combination of non ionic and cationic biodegradable surfactants with speciality phosphate and sequestering agents.

FOAM CLEANERS

1. **SATFOAM CL** - Liquid alkaline chlorinated foam cleaner developed for daily open plant cleaning requirements. The product is a perfect blend of potassium hydroxide, high foaming surfactants and hypochlorite. The presence of surfactants offers an improved sanitizing action and potassium hydroxide provides a strong detergent effect.
2. **SANIFOAM** - Acidic liquid foam cleaner developed for cleaning applications in food processing industries such as beverage, dairy and brewery units. It is a perfect blend of inorganic acid and foaming agents. It also has its application in fish processing and poultry units for quick cleaning of the processing areas.

ACIDIC CLEANER (WEEKLY CLEANER)

Acidic Cleaner is acidic nature foamless cleaner developed for daily use in the Food Processing Industries, especially at Milk Collection & Processing Units. It is a perfect blend of inorganic acids and non foaming surfactants. It is very effective for use in daily cleaning applications of Milk Collection and Processing Equipments like milking machines, bulk milk coolers etc.

ALKALINE CLEANER (DAILY CLEANER)

Alkaline Cleaner is liquid alkaline foamless cleaner developed for daily use in the Food Processing Industries, especially at Milk Collection & Processing Units and Sea Food Processing Industries. The product is a perfect blend of Non Foaming Surfactants and Sodium Hypochlorite. The presence of surfactants offer wetting action and potassium hydroxide provides a strong detergent & descaling effect. It is very effective for use in daily cleaning applications of Milk Collection and Processing Equipments like milking machines, bulk milk coolers etc and removal of fish fats in Sea Food Processing.

CLEANING & SANITATION SOLUTION FOR PROCESSED FOOD & SNACK INDUSTRIES

SATOL HP 100 ((OXY MULTIPURPOSE CLEANER)

SATOL HP 100 is a foaming type excellent cleaning agent with formulation suitable for hygienic cleaning and sanitation of floors, tanks, equipments etc in Food Processing Industries & Housekeeping areas. It releases active oxygen while cleaning the surface with its detergency action and removes all oxidisable entities present.

STENZA MPC

STENZA MPC : It is Liquid colorless alcohol based multipurpose waterless cleaner cum sanitizer for all hard surfaces having almost neutral pH used to remove oil, grease, stains, fatty surface cleaner.

SATOL DG

It is a heavy duty liquid degreaser concentrate developed for penetrating and dissolving hard surfaces which are highly soiled by oils, fats and greases. The product is a perfect blend of special solvents and wetting agents which helps for fast penetration through highly soiled surfaces like grease, fats etc. Satol DG is suitable for manual as well as spray foam cleaning applications for heavy duty cleaning and degreasing of equipments, food processing areas such as floors, walls etc.

SATOCID MC

It is specifically formulated low foaming, high active, Nitric acid / Phosphoric acid blend de scaling cleaner for various CIP circulations to remove inorganic deposits in Food and beverage industries. Satocid MC is Perfect blend of inorganic acids for excellent mineral scale removal with low Foaming / No fuming fast action cleaner cum descaling agent . Satocid MC is effective against removal of Calcium Oxalate/beer stone in beer industries and also helps in efficient removal of protein and mineral deposits in Food Industries.

SATOL - AF (ANTI FOAM)

SATOL - AF is an organic defoamer especially formulated for the production of Potato (Starch, French Fries, Chips) as well as for sugar production. It performs exceedingly well to control foams in all types of fermentation processes.

SATOL FREEZE CLEAN (FREEZE CLEANER)

SATOL FREEZE CLEANER is an alkaline cleaner formulated for use in refrigerated or freezer environments down to 20° F (28.9°C)

SATOL NEUTROFOAM (NEUTRAL FOAM CLEANING AGENT)

Neutrofoam is foam cleaning agent developed for daily use in the Food and Beverage Industries. The product is a perfect blend of high foaming surfactants and EDTA. The presence of surfactants offers an improved sanitizing action and EDTA provides a strong detergent effect. It is very effective for use on a wide variety of applications ranging from effective removal and prevention of food soiling, scale deposits and oil stains.

CLEANING & SANITATION SOLUTION FOR BREWERY & BEVERAGES

BOTTLE WASHER PROGRAMS

1. **SATOL KAP (Bottle Washing Caustic Additive - Phosphate base)** - This product is having excellent performance as caustic additive in Returnable Glass Bottle Washing by resulting in low consumption of caustic soda, maximum penetration and wetting of labels, excellent bottle shining and micro biological cleaning of glass bottles.
2. **SATOL PF (Bottle Washing Additive - Phosphate free)** - EDTA based caustic additive for Glass Bottle Recycling and Washing. It reduces consumption of Caustic Soda with better penetration and metallic label removal, thus resulting into microbes free & streak free cleaning.
3. **SATOL DS (Descaler for Bottle Washer Machine)** - Excellent descaler which efficiently removes Ca and Mg scales from any hard surface with immediate prevention from new scale deposits. It can be used directly as well as in combination with acid solution.
4. **SATOL A (Booster for Bottle Washing)** - Liquid Emulsifier specially developed for boosting penetration property in caustic bath. Increase the wetting ability of metallic label which is not easily removed in normal condition. It provides fast penetration effect in high alkaline & high temperature.
5. **SATOL DF (Defoamer for Bottle Washer Machine)** - It is an innovative and effective industrial foam controller with its application in Food & Beverage Industries. It is silicone based, specially developed concentrated liquid defoamer product. It provides efficient, cost effective defoaming at low use concentrations.

SATOL'S BOTTLE WASHER RINSE TREATMENT

Pre - final rinse treatment involves the dosing of a rinse additive, Satrinse AL a specified use concentration into the pre-final rinse section of the bottle washer. Satrinse AL must be used at a pH of 7 – 8 for optimal effectiveness. To maintain the pH in the range 7 -8 Satrinse PA is to be dosed.

SATRINS - AL (Liquid Additive to Alkaline Agents)

SATRINS - AL is Liquid additive to alkaline washing agents for automatic bottle washers in the brewing and beverage industries.

SATRINS - PA (Bottle Washing Pre Final Rinse Treatment)

SATRINS - PA is Liquid additive to alkaline washing agents for automatic bottle washers in the brewing and beverage industries.

CONVEYOR CHAIN LUBRICATION / TRACK TREATMENTS

- " **SATLUBE - SD (Semidry Conveyor Chain Lubricant)**
It is a semidry conveyor chain lubricant in liquid form with cleaning and germicidal properties for chain conveyors in Food & Beverage Industries. It is a specially developed synthetic lubricant product for transportation of the goods in glass bottles, cans and PET bottles.
1. **SATLUBE LF (Synthetic Conveyor Chain Lubricant)** - Soap free synthetic lubricant in liquid form with cleaning and germicidal properties for chain conveyors in Brewery & Beverage Industries. It is a specially developed product for transportation of the goods in glass bottles.
 2. **SATLUBE MAX (Semi Dry Conveyor Chain Lubricant)** - It is a specially developed semi-dry lubricant product for transportation of the goods in glass bottle, cans and PET bottles with considerable water usage reduction for chain conveyors in Food & Beverage / Brewery Industries.
 3. **SATODRY (Dry Conveyor Chain Lubricant)** - Concentrated conveyor chain lubricant, specially designed product to be used as a concentrate with no water dilution required and it is suitable for transportation of the goods in PET bottles and cans on flat top conveyor chains.

CLEANING IN PLACE (CIP) CLEANERS & SANITIZERS

1. **SATONIL PA (5 & 15%) (Cold Sanitizer based on H₂O₂ and PAA)** - Fast action sanitizer based on stabilised Hydrogen Peroxide and Peracetic Acid and highly effective against most of the micro-organisms and viruses in cold water. Peracetic Acid provides fast sanitizing and Hydrogen Peroxide renders the product suitable for flushing or immersion.
2. **SATOCID (Low Foaming Acidic Cleaner)** - Low foaming acidic cleaner cum sanitizer for CIP. Effective removal of beerstone from tanks and vessels without any effects on material of construction.
3. **SATOL AC (Alkaline Caustic Additive)** - Alkaline Caustic Additive, which is a combination of highly concentrated cleaner with low foaming surfactants for reducing surface tension and cationic disinfectant for quick sanitation. Usage reduces the caustic soda consumption with excellent cleaning results.
4. **SATOL - HAC (High Alkaline Cleaner)** - SATOL HAC is Liquid alkaline cleaning agent for CIP systems and continuous washing plants in the food industry with excellent De-Foaming effects.

OPEN PLANT CLEANING

1. **SATFOAM CL (Alkaline Chlorinated Foam Cleaner)** - The product is a perfect blend of potassium hydroxide, high foaming surfactants and hypochlorite developed for open plant cleaning requirements. The presence of surfactants offers an improved sanitizing action and potassium hydroxide provides a strong detergent effect.
2. **SANIFOAM (Acidic Foam Cleaner)** - Acidic foam cleaner developed for cleaning applications in food processing industries such as beverage, dairy and brewery units. It is a perfect blend of inorganic acid and foaming agents.
3. **neutrafoam (Multipurpose Liquid Cleaner)** - Developed for daily manual cleaning applications of tanks, crates, cans, floor, trays and other process areas. It is a combination of Anionic, Non Ionic base surfactants and Sequestering agents. Non Ionic surfactants reduces the surface tension, Anionic surfactant gives cleaning effect and Sequestering Agent results in descaling.

PASTEURIZER CHEMICALS

1. **SATOL OR (Pasteurizer Biocide)** - It is specially developed effective industrial odour controller product for prevention of growth of algae and slime in circulating fluid section of pasteurizer zone. It provides efficient, cost effective microbiological control at low use concentrations. It protects the aqueous phase from microbial growth and work as biocide against odour causing bacteria.
2. **SATONIL QUAT (General Purpose Disinfectant)** - This product is an excellent combination of various cationic surfactants and sequestering agent which results in efficient soil removal and disinfection of the surface.

COOLING TOWER TREATMENT

1. **SATOGUARD (Cooling Tower Water Treatment)** - It is a specially developed formulation of high strength Peracetic Acid for the treatment of cooling tower water. It takes care of all the zones of water cooled cooling systems such as evaporator zone, chilling and open section. The problem areas addressed through SATOGUARD are scale formation, microbiological growth, pH control and fouling.
2. **SATOL AS (Anti Scaler)** - It is a liquid antiscalant for total control with all kinds of water quality in water systems. This product ensures that the water can be reused for more cycles which will have further efficient and economical operation for water treatment in open & closed systems. SATOL AS is especially developed to prevent the mineral scales, corrosion by-products as well as organic fouling.

PETJAR CLEANING PROGRAMME

- " **SATOCID - JC (PET JAR CLEANER)** : It serves as a low foaming heavy duty, non foaming acidic cleaning compound for use in a wide range of CIP applications in the Dairy, Food and Beverage industry and also used for PET Jar Washing for package drinking water. The product is highly effective at removing inorganic scale deposits, including Magnesium and Calcium, phosphates with protein milk stone, calcium oxalate. It is low foaming and suitable for use in CIP applications under conditions of high pressure and turbulence. It contains chelants, non ionic surfactants and acids for imparting crystal shine cleaning of PET jars. Satol is ISO certified company that specializes in the manufacturing of Cleaning Chemical for Food and Beverages Industry. It is also established to be among India's renowned Cleaning Chemical manufacturer having its facility in Himachal Pradesh.

CLEANING & SANITATION SOLUTION

ACIDIC CLEANER (WEEKLY CLEANER)

Acidic Cleaner is acidic nature foamless cleaner developed for daily use in the Food Processing Industries, especially at Milk Collection & Processing Units. It is a perfect blend of inorganic acids and non foaming surfactants. It is very effective for use in daily cleaning applications of Milk Collection and Processing Equipments like milking machines, bulk milk coolers etc.

ALKALINE CLEANER (DAILY CLEANER)

Alkaline Cleaner is liquid alkaline foamless cleaner developed for daily use in the Food Processing Industries, especially at Milk Collection & Processing Units and Sea Food Processing Industries. The product is a perfect blend of Non Foaming Surfactants and Sodium Hypochlorite. The presence of surfactants offer wetting action and potassium hydroxide provides a strong detergent & descaling effect. It is very effective for use in daily cleaning applications of Milk Collection and Processing Equipments like milking machines, bulk milk coolers etc and removal of fish fats in Sea Food Processing.

SATOL - HAC (HIGH ALKALINE CLEANER)

SATOL HAC is Liquid alkaline cleaning agent for CIP systems and continuous washing plants in the food industry with excellent De-Foaming effects.

SATOL - ECODS (Acidic Cleaner For Milking Machine Analyzer)

ECO DS is a acidic de scaler can replace nitric acid with non foaming, low fumes, low corrosive with good rinsibility contributing low ETP local and nitrite in CIP system where nitric acid is used will save gasket and reduce employee handling risk.

ECO CARE (Perfumed Liquid Gel)

Product is a Satol perfumed liquid gel which is an effective hygiene and sanitation gel for hands leaving a pleasant smell and it is an appropriate moisturizer.

ECO CLEAN (Multipurpose Liquid Cleaner)

ECO CLEAN has been developed for the current requirement of Industrial & Institutional Cleaning in the Food & Beverage Industries as well as

Housekeeping Applications can be applied as cleaner for tanks, crates, cans, floor, trays and other process areas. is effective for cleaning of kitchen utensils, glassware, floors and oily surfaces. is safe on various surfaces like : Stainless Steel, Aluminium, Plastic, Rubber, Fiberglass and all other materials utilized in Food Processing Units.

SATOL HP 100 ((Oxy Multipurpose Cleaner)

SATOL HP 100 is a foaming type excellent cleaning agent with formulation suitable for hygienic cleaning and sanitation of floors, tanks, equipments etc in Food Processing Industries & Housekeeping areas. It releases active oxygen while cleaning the surface with its detergency action and removes all oxidisable entities present.

SATLUBE - SD (Semidry Conveyor Chain Lubricant)

SATLUBE SD is a semidry conveyor chain lubricant in liquid form with cleaning and germicidal properties for chain conveyors in Food & Beverage Industries. It is a specially developed synthetic lubricant product for transportation of the goods in glass bottles, cans and PET bottles.

SATOCID - JC (PET JAR CLEANER)

SATOCID - JC serves as a low foaming heavy duty, non foaming acidic cleaning compound for use in a wide range of CIP applications in the Dairy, Food and Beverage industry and also used for PET Jar Washing for package drinking water. The product is highly effective at removing inorganic scale deposits, including Magnesium and Calcium, phosphates with protein milk stone, calcium oxalate. It is low foaming and suitable for use in CIP applications under conditions of high pressure and turbulence. It contains chelants, non ionic surfactants and acids for imparting crystal shine cleaning of PET jars. Satol is ISO certified company that specializes in the manufacturing of Cleaning Chemical for Food and Beverages Industry. It is also established to be among India's renowned Cleaning Chemical manufacturer having its facility in Himachal Pradesh. Your search for good quality Jar Cleaning Chemical supplier ends here.

SATRINS - AL (Liquid Additive to Alkaline Agents)

SATRINS - AL is Liquid additive to alkaline washing agents for automatic bottle washers in the brewing and beverage industries.

SATRINS - PA (Bottle Washing Pre Final Rinse Treatment)

SATRINS - PA is Liquid additive to alkaline washing agents for automatic bottle washers in the brewing and beverage industries.

SATOL - AF (ANTI FOAM)

SATOL - AF is an organic defoamer especially formulated for the production of Potato (Starch, French Fries, Chips) as well as for sugar production. It performs exceedingly well to control foams in all types of fermentation processes.

SATOL FREEZE CLEAN (Freeze Cleaner)

SATOL FREEZE CLEANER is an alkaline cleaner formulated for use in refrigerated or freezer environments down to 20° F (28.9°C)

SATOL NEUTROFOAM (Neutral Foam Cleaning Agent)

Neutrofoam is foam cleaning agent developed for

daily use in the Food and Beverage Industries. The product is a perfect blend of high foaming surfactants and EDTA. The presence of surfactants offers an improved sanitizing action and EDTA provides a strong detergent effect. It is very effective for use on a wide variety of applications ranging from effective removal and prevention of food soiling, scale deposits and oil stains.

ECO DS is a acidic de scaler can replace nitric acid with non foaming, low fumes, low corrosive with good rinsibility contributing low ETP local and nitrite in CIP system where nitric acid is used will save gasket and reduce employee handling risk.

SATOL IPA: It is a direct hydration process, producing a colorless product of high purity, with no undesirable odor or by-product formation. The product meets international quality standards for use in pharmaceuticals, coatings and inks, specialty chemicals and cosmetics. For critical applications in the pharma sector

Scrubbers & Polishers

Folding / Adjustable Handle

Large Solution Tank

Designed specially for aggressive deep cleaning with ultrahigh speed, the **SATOL** single-disc scrubber **S14** offers multipurpose usage for all types of hard floors and cleaning jobs, for scrubbing, buffing and carpet cleaning.

Maintenance-free single phase - a synchronous motor gives long life and reduces costs. Ideal for floor stripping, spay cleaning and dust collection in hotels, hospitals, industrial shop floors, workshops, etc.

Unique in handle adjustment, suitable for any user. All functions are controlled from the operator handle with an in-built safety grip for easy maneuverability. The low offset motor gives the optimal performance.

S14

Model No	Motor	Voltage	Main Cord	Sound Level	Speed	Weight	Size
S14	1100 W	220-240V AC 50Hz	12m	55(Db)	154 rpm	43 Kgs	555x470x330 mm

High Pressure Cleaners

These **High-Pressure Cleaners** are highly specialized multifunctional machines with exceptionally reliable safety assurance. These High Pressure Cleaners are suitable for cleaning and washing big warehouses, supermarkets, malls, farmhouses, golf courses, hotels, hospitals, swimming pools, cars etc.

All machines come with features such as ceramic pistons, stainless steel boiler, safety valve and total stop.

Standard accessories include appropriate size of hoses, spray lances, nozzle and trigger guns.

S-CCW150

S-CCWP160

S-CHW 150

Model No	Power	Motor Power	RPM	Pressure	High Pressure Hose	Water Delivery	Max. Water Inlet Outlet Temp.	Power Cable	Weight	Size

3 Phase Heavy Duty Pressure Cleaners

Model	S-160
Working Pressure	160 Bar
Max Working Pressure	175 Bar
Water Flow Rate	13 Ltr./Min.
Max. Intel Water	60°C
Electric Supply	Three Phase, 415V
Electric Motor	5 HP, 1450 RPM, 50Hz
Mounting	MS Trolley (Open Body)

Pump : Triplex reciprocating pump, brass pump head, ceramic piston, stainless steel valves, safety valves with water inlet coupling and filter.

Chemical Sprayer

A compression sprayer with a 5-litre working capacity, with a translucent tank to see the liquid level, fibreglass lance, chamber shut-off valve in viton, ergonomic handle filter with viton seals and stainless steel spring.

Pneumatic Fogger

Model	: Electrically operated aerial fogging system.
Power Supply	: 220-240 volts, 50/60 Hz AC, 4.0 Amps, Single phase supply. Available on specific order request : 110-120 Volts, 60 Hz AC, 9.0 Amps
Sound Level	: db < 84 dB
Chemical fogged	: Disinfectants, biocides, Fungicides, Pesticied, Anti mildew chemicals.
Capacity of tank (net)	: 5.0 litres
Droplet Size tested	: Sub Micron (less than 1 micron)
Jet throw in closed Room	: 50 feet distance, 25 ft height (still air conditions)
Metering system	: 45-50 ml/minute (Fix flow system)
Optional	: Metering valve available for specific application.

Electric Fogger

Premium Grade SS Tank Set

Non Reactive Engg. Plastic Tank Set

SPECIFICATIONS

Power Supply : 220V AC, 50 or 60 hz
Aerosols : Submicron size(non wetting)
Spread & Reach : 50 ft. distance & 25.ft. height
Space Treatment : Upto 15000 cu. ft.
Treatment of 100 sq. ft. area : 200ml. disinfectant solution
Nozzle Assembly : Non clogging design— Stainless Steel needle non reactive Engg. plastics.
Precision Metering System : 5 Litre Stainless Steel Gr. 304 (Autoclavable) Liquid Filling Nipple - SS 304 or Engg. Plastics Tank Set 5 Ltr. Capacity with Graduated Markings Tank Gasket - Silicon Grade
Silicon Tubing : Complies to FDA & USP CLASS VI.
Machine Handle : Stainless Steel
Mounting Ring : Stainless Steel
Strainer : Stainless Steel
Liquid Line Connectors : Stainless Steel
Hardware : Stainless Steel
Intake Air Filter : Uniquely designed Two layers for dust & fog separation
Machine Weight : 7.0 kg portable. (with SS Tank set)
Machine Weight : 6.0 kg portable. (with Plastic Tank set)

Dish Washing Pumps

Ideal applications include under-counter washers, glass washres, and small commercial machines.

SPECIFICATIONS :

- Dual voltage (115/230 VAC) or high voltage only (230 VAC) models
- Mini quick change pump allows tubing replacement in seconds.
- Complete pump assembly removes without tools.
- Units programmed via plug in 2 button programmer.

Dosatron Injector

SPECIFICATIONS

Injection range : 0,2 - 2 % [1:500 - 1:50]

Water flow range : 10 l/h - 2,5 m3/h

Operating water pressure : 0,3 - 6 bar

Concentrated additive injection : 0,3 l/h - 200 l/h

Stroke volume : ~ 0,45 l

Connections : NPT-BSP 3/4" M

Industrial Wet & Dry Vacuum Cleaners

S 15

S 30

S 260

S 360/380

Comprehensive range of multipurpose accessories for daily wet and dry cleaning, depending upon the type of application.

ADVANTAGES: Durable flexi-hose, washable and reusable filter, and a motor that can run without breaks over considerably longer periods.

Additional accessories available on request.

Model No	Power	No. of Motors	Volts	H2O for Lift (mm)	Emv %s (ltrs/sec)	Capacity	Weight	Size

Laundry Pump

The Smart Series provides operators of professional laundry facilities of all sizes - from OPLs to industrial laundries - with a package of reliable, flexible solutions for precise, consistent chemical dosing.

Covering washer-extractors and tunnel washers from 25kg to 100kg, the Smart Series pumps can dose up to three chemicals simultaneously, with the option of fixed or selectable flow rates.

The Smart Series is capable of serving 2-7 pump systems with as many as 20 wash formulas, providing excellent chemical compatibility courtesy of high-grade Santoprene and Neoprene tubing.

The dedicated Smart Spring controller and Smart Programmer complete the Smart Series range for a packaged professional Laundry solution that provides total dosing management.
