

SATONIL PA

Fast Action Sanitizer

SATONIL - PA is a special fast action sanitizer based on stabilized Hydrogen Peroxide and Peracetic acid, Satonil PA - is highly effective against all types of micro organisms and viruses even in cold water. Peracetic acid provides fast sanitizing & Hydrogen peroxide renders the product suitable for flushing or immersion.

It is developed for giving fast sanitizing effect in Breweries, Beverages, Canners of fruit & vegetables, Fish processing industry, bakeries, confectionary and food processing industry.

USAGE INSTRUCTION

- Generally concentration of 0.15-0.6% is required for disinfection, temperature range from ambient to approximately 40°C is preferred for disinfection. Higher temperature intensifies the disinfection action and reduces the contact time. Temperature beyond 40°C is not necessary for obtaining an improved germicidal action and should be avoided for reasons of stability.

FORMULATION

Hydrogen Peroxide	18%
Peracetic Acid	5%
Acetic Acid	5-15%

SPECIFICATION

Form	: Clear Liquid
Appearance	: Colourless
Odour	: Acidic
Specific Gravity	: 1.15±0.05 gm/cm ³
Solubility	: 100% water soluble
pH	: 4.0±0.5 in 1% solution 1.5±0.5 in 100% concentrate

PACKAGING :

1kg, 5kg and
25 kg
container

CORPORATE OFFICE :

102, First Floor, Shreemad Gokul,
Off Devidas Lane, Behind M.C.F. Club,
Borivali (W), Mumbai - 400 092, INDIA,
