

SS CLEANER

Cleaner for Stainless Steel

SS Cleaner is an excellent solution for cleaning and removing surface contaminants such as dirt, residue, fingerprints, water spots, and other marks commonly found on stainless steel. It has been developed through advanced surface chemistry research for metals to effectively clean and eliminate contaminants while imparting a smudge-free, residue-free finish.

- Suitable for use on stainless steel, chrome, architectural aluminum, and other interior metal surfaces.
- Can also be used on other hard, washable surfaces such as laminated plastics, enamel, and ceramic.
- Not intended for use as a glass cleaner.

USAGE INSTRUCTION

- Apply a 1% solution of the cleaner to the surface using a trigger sprayer or a clean cloth.
- Clean the entire area and polish to the desired finish.
- For heavy surface contamination, rub the surface vigorously.
- Store in a cool, dry place away from direct sunlight.

PACKAGING

100 GM, 1 L, 5 L

BENEFITS

- Makes stainless steel maintenance amazingly simple.
- Provides smooth application and clings to vertical surfaces.
- Leaves no greasy build-up on surfaces.
- Leaves a light protective film after cleaning.
- Prolongs the "like-new" brilliant shine.
- Retards tarnishing, corrosion, bacterial growth, and water marks.
- Prevents discoloration, dirt accumulation, streaks, and fingerprints.

SPECIFICATION

Form	: Liquid
Appearance	: Clear colorless
Odor	: Odorless
Specific Gravity	: 1.10±0.05 g/cm ³
Solubility	: 100% water soluble
pH	: 1.50±0.5 in 1% solution
	: 0.5±0.5 in Concentrate
